HONG DI IN COLUSA. The Murderer Is In No Danger of Being

Lynched. Copyright, 1887, by the California Associated Press. Colusa, May 26th.—Hong Di, in charge of Sheriff Beville and Under Sheriff Staton, arrived here about 5 o'clock this morning. They put Hong in a buggy, setting him in the bottom, so they could throw the laprobe over him and make it appear that there were only two men in the buggy. But they anticipated no attempt at rescue. Hong Di now looks well-fed and sleek. The talk about his being lynched at Colusa is the veriest bosh. There is not a man in Colusa who will not in this case, as in all others, maintain the majesty of the law. There will be no lynching, and no attempt at it. The murderer is in jail, and there is not the slightest ripple of excitement. About the only excitement here is that created by the classical state. that created by the slanders on the dead Mrs. Billiou. He will have as fair a trial here as though he were worth his millions A CASE OF GOOD RIDDANCE.

OROVILLE, May 26th .- Hong Di left here t 10 o'clock last night in charge of Sheriff Beville and a deputy for Colusa. The feeling here in regard to the Examiner dispatch, though considerable, is not so pro-nounced as at Chico and Colusa, as all the arties are strangers here. We are glad to pe rid of Hong Di.

It is as follows: To the Editor of the Examiner, San Francisco-DEAR SIR: In your issue of Tuesday, May 24th, you published what you call "Hong Di's Con-ression," stating that I am inclined to credit his statements. Now, Mr. Editor, this is entirely neorrect. Knowing the circumstances so well, neorrect. Knowing the circumstances so well, know the Chinaman's statements are false. If Hong Di did not intend to murder my whole amily, why did he shoot Weaver while in the nouse? Why did he chase Annie around the nouse armed with an ax? Why did he fire two shots, after wounding Weaver and killing Mrs. Billiou, and why did he break in the door with un ax? Weaver is Chillicothe, Mo., and holds nimself in readiness to return to St. John at once.

FRIGHTFUL LOSS OF LIFE BY THE PARIS FIRE.

Two Hundred Persons Burned-Frederick William's Danger-Attempt to Kill the Sultan.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

THE PARIS HOLOCAUST. Iwo Hundred Lives Said to Have Been

Lost in the Fire. Paris, May 26th.-The bodies of the ballet dancers who lost their lives by the burning of the Opera Comique last night are lying in heaps in the ruins of the theater. The number of persons killed greatly exceeds the previous estimates. An excited crowd surrounds the ruins, which are guarded by a military cordon. Twenty bodies, in a terribly mutilated condition, have been recovered from the uins. The remains are principally those of ballet girls, choristers and machinists.

The remains of three men and two woproposes to close several Paris theaters be-cause of their deficiency in exit. Late this afternoon the bodies of eighteen ladies in full dress were found lying to-gether at the bottom of the staircase lead-

ing from the second story. These ladies all had escorts to the theater, but no remains of men were found near where the women were burned to death. The walls of the theater began falling this morning, and search for bodies had to be abandoned for the day. The library attached to the theater was entirely destroyed with its contents, including many aluable scores. Six thousand costumes

were burned in the wardrobe. LATER .- THE SEARCH RESUMED Paris, May 26th-P. M.—The work of earthing for bodies was resumed to-night, and a number more were exhumed. The official statement says that fifty bodies have already been recovered. Reveilleon, speaking in the Chamber of Deputies this afternoon, estimated that at least 200 persons lost their lives in the fire. The Chamber voted a credit of 200,000 rancs for the relief of the sufferers by the Opera Comique fire.

PERSONS MISSING Paris, May 26th.—To-day 156 missing persons have been inquired for by relatives. They are supposed to have perished in the flames. The bottom of the theater is flooded with water to a depth of five feet. Sixty bodies have been found floating in the water by firemen.

NOTABLES WHO ESCAPED. Paris, May 26th .- Among the audience at the Opera Comique last night were General Boulanger, General Saussier, General l'nibauedin, M. Goblet, M. Berthelot.

All escaped unhurt. DEEDS OF VALOR, ETC. An artist named Phillippe performed prodigies of valor in saving life. He mounted a ladder three times and saved three danseuses after they had been abanoned by the firemen. A singer had a miraculous escape from a dressing-room in the angle at the top of the building. BREAKING DOWN.

Gladstone and Parnell Both on the De-London, May 26th.—The rising of Parliament naturally suggests a brief retrospect of the gains and losses during the past session. "On the whole, the losses strongly predominate for the home-rule cause." said Gladstone on a famous occasion; but time has been his chief enemy this session It is impossible to see him and not be struck with the inroads time is making upon him. His wonderful voice is gone; s piercing glance is no longer what it was. Whenever a provincial Liberal who has not seen Gladstone for a year or two comes to town and meets him face to face he can talk of nothing else for days but the

fact that it is no longer possible to count on Gladstone to fill his old place. All this has been increasing very rapidly of late.

Of Parnell, I can only repeat that he ooks like a living corpse. Without changes almost too great to expect, he will never rs prohibiting, until further notice, the lead his party again, "Disease, advancing portation of neat-foot cattle from that age, the prospect of death," says a leading writer this morning; "these are the trinity which buoy up the hearts of the coercion-ists with the hope that they may save the

"A FAIR COLLISION."

In another column will be found an editorial article from the San Francisco Alta on the conflict of dates between the State Fair and Mechanics' Institute Fair. It is supplemented by an extract from the report of the proceedings of the State Agricultural Society for 1886. That extract ference held by committees from the two fairs and the Boards of Trade of Sacramento and San Francisco.

At that time, it will be found, an under standing was arrived at that the dates should not conflict. The Mechanics' Institute management, ignoring the understanding, have covered that date, and thus the "Fair Collision" has been renewed, which the Alta and Post of San Francisco deprecate, and advise shall be ad-

The State Board has been faithful to its part of it. We trust this matter will be settled speedily, and that San Francisco will recede from its unpardonable action in covering the State Fair dates. But if the San Francisco managers refuse

to recede; if they insist that August and September shall be given over to them and all State Expositions held in abeyance during their good pleasure; if they propose that the State Fair, which is the State's, and as broad as all State interests, shall recede to October, or advance to July -a preposterous idea-the people of the interior will take the matter up, and we

Some History Reviewed-The Pledge that the State Fair and Institute Fair Should Not Conflict.

[S. F. Alta, May 26th.] The country press is discussing with much spirit the concurrence in time of the State Fair and the Mechanics' Fair at the Pavilion in this city. The matter is more serious than heretofore in consequence of embodies the resolution passed at the con- the determination of the Institute to seek the co-operation of business men in making a full exhibit of the products and resources of the State. This excellent plan, if carried out, puts the Institute into the same field as the State Fair, with the exhould be very seriously considered ecessary to avoid a collision. The State Fair is on for two weeks. The Institute Exposition can easily and profitably run for four or five weeks. San Francisco wishes to do nothing to rouse the ill feeling It is good advice. San Francisco and of the rural districts. This city desires to help, not to hurt, every interest in California, for they are all tributary to her prosperity. The officers of the State Agricult-ural Society tell of implied understandings which will be violated by placing the Institute Fair on dates already taken by the there be any ground for a charge of bad faith, we do not hesitate to say that the inadvertance upon which it may be based should be remedied. The business men who have consented to co-operate with the Mechanics' Institute have a personal stake in the matter of sufficient gravity to justify their counsel to the body with which they are co-operating. They have undertaken the labor and the task of providing the means which shall bring to view in the Pavilion every product, mineral and vegetable, that the State furnishes to commerce. They need the cheerful and willing assistance of the farmers, and cannot afford to contend with jealousies and heart-burnings and resentnents in their quest for ma erial.

cessful, but the country will prefer that the State Fair shall succeed if they are driven to a choice between the two. This is the year of all others in which the State will gain wonderfully by the success of both. The summer and autumn visitors from abroad will be more numerare perfectly confident as to the result of a ous than ever before. They come here with curiosity whetted to see what we have to offer in proof of our widely trumpeted resources. Many of them would attend both shows, and their interest, roused at Sacramento, will not flag when they come to this city and witness a rearranged duplicate of what they have seen there, with the additional attractions found in the features in a different light by the music and color

No country in the world can put its profrom which its support is drawn, nor should we compel it into a position in

We suggest that the officers of the Meto this city when the Pavilion offers its tastefully-arranged exposition to attract them.

WHAT THE AGREEMENT WAS. [From the report of the State Agricultural So-

ciety for 1886.7 For many years past the Board of Directors of this society have endeavored to arrive at an amicable adjustment of dates of holding the Mechanics' Institute Exhibition and the State Fair, whereby they would not conflict with each other. Both astitutions are recognized by exhibitors as important factors in the development of the industries of the State. We desire to plan cf conference, which we believe will accomplish the desired result. Early in the year we were asked by the Boards of Trade of San Francisco and Sacramento to appoint a committee to act in conjunction with a like committee from the Mechanics

IN THE FACE OF THIS UNDERSTANDING The Institute managers have for 1887 so placed their dates that it is simply impossible to avoid collision. The one thing to do is for the Institute to close their fair so early as to give exhibitors full opportunity a seasonable fair, and cannot be dated so much earlier than it now is as to precede the Institute Fair. The State Board of Agriculture, acting in 1886 in good faith, set than usual for the purpose of conciliation. ompelled to set their dates in advance of lose of the State Fair, whereas heretofore they have come after it. Bitter Bread.

Complaint is frequently made by thos who use baking powders that they leave in bread, biscuit or cake raised by them a disagreeable, bitter taste. This taste follows the use of all impure baking powders, and is caused either by their containing alum (introduced to make a cheap article), by the impure and adulterated character of other ingredients used, or from the ignor-ance of their manufacturers of the proper methods of combining them These baking powders leave in the bread a residuum formed of lime, earth, alum or other dele terious matter, not always, though fre quently, tastable in the food, and by al physicians classed as injurious to health The Royal Baking Powder is free from this serious defect. In its use no residuum it left, and the loaf raised by it is always The committee from this Board reported | sweet, light and wholesome, and noticeable that it was not possible for them to come free from the peculiar taste complained o The report was accepted and the resolu- are justified in this assertion from the untion adopted by this Board, so that we now hope to be able to accommodate all who haustive tests recommended the "Royal for governmental use because of its super ority over all others in purity, strength and wholesomeness. There is no danger of

bitter bread or biscuit where it alone is used. Sacramento Deserves to Prosper The boom is prevailing in Sacramente ast now, but it is not an unfamiliar visitor The Capital has not always enjoyed a rush of prosperity, but considering the obstacle their exhibition in accordance with the it has had to surmount-its sieges of debris ontract duly entered into. The result is and flood and the Legislature—it has been one of the most enterprising cities of the and of giving away to the demand made State. Its business men have always been by the Mechanics' Fair people. By this action many of the District Fairs have been little money in circulation they have seen little money in circulation they have succceded in catching their share of it. Sacramento deserves to prosper.—S. F. Post.

> A Self-Propelling Engine. The self-propelling engine or steam wa

on which was operated on the streets of Sacramento last evening by Colonel H. H. Linnell, was witnessed by a large number of people. Among those who examined into its merits were many farmers and a number of our leading business men. This team wagon, which has attracted so much attention during the last ten days, while standing in front of Mr. Linnell's agricult urai implement establishment on J street was "fired up" and put in motion and run lown to Friend & Terry's lumber yard Second street, between M and N. Here it was hitched to wagons loaded with lumer, which weighed about nine tons, and started up town to the lumber yard, corner made with the utmost ease, starting with 80 pounds of steam, which soon run up to 120. In a few days this engine will be shipped to the ranch of Mr. Chiles, work hauling a combined harvester. This piece of machinery has many advantages, a few of which can only be noticed in this connection. The demand since the introaction of the combined harvester for some power other than animal to operate them has been sought for, and steam has

been used, but with indifferent success. A variety of engines have been tried but none have proved successful. They were either worthless or too large and cumbersome, or too expensive to operate. These obstacles placed them beyond the reach of farmers with moderate means. Mr. Linnell has given the subject of traction engines for the purpose of hauling combined har-vesters, plowing and doing various other that human ingenuity can possibly devise. The engine and all machinery is mounted upon wrought iron frame and side plates, independent of boiler, leaving it free to expand and contract without any danger of training. The improved iron traction wheels are independent in action, driven by patented compensating gear, with locking device that is made to engage with an arm fastened to the axle.

sinment will be given by the young ladies passing over slippery ground, thus utilizing both wheels for better engagement with earth, and preventing slipping. The boiler is made with water front and adapted to go either up or down hill, with crown sheet always under water. It is economical in fuel and water, with a capacity for full supply of both. Mr. L. Finnell is agent

West India Fruits.

Sacramento merchants are proverbially enterprising, and this is especially true of many of those in the fruit shipping busireached this part of the world, and shows what can be done in this day of quick railroad communication and facilities for safe handling over long distances. The fruit came in one of the Southern Pacific ruit cars, by passenger train, and was found upon arrival to be in excellent con-dition. It differs from the banana with which we are familiar on this coast, in that the bunches are, many of them, of much greater size, while the fruit is of different shape. Here is another evidence of the fact that Sacramento is a natural commercial center, both by reason of numerous railroads converging here, and also on ac-count of the facilities for distribution of goods and products. Already arrange-ments have been made to distribute this large cargo of tropical fruit to as far east as Utah and Montana, and north, by the quick time now made by the California and Oregon route, to all the Webfoots and other inhabitants north of us.

In this connection it may be further stated that Mr. Wallace, a prominent business man and banker of Salem, Or, is now in this city investigating as to arrange-ments for shipping fruit from that portion of the coast to this city, with a view to here placing it in our special fruit trains for the Eastern market. At the same time he is also arranging for Sacramento nursery stock for next season's planting in Central

The remarkable business built up by Senator Douglass, of Massachusetts, in the sale of his celebrated "THREE-DOLLAR" SHOES, can only be accounted for on the ground that the article itself is one of unusual merit.

HOUSEHOLD REMEDIES -OF THE "SARSFIELD" REMEDIES CO.

SARSFIELD'S REMEDY for the Blood and Constipation! SARSFIELD'S REMEDY for Diphtheria and Pneumonia! SARSFIELD'S CHRONIC ULCER SALVE!

The people of the Interior will remember that a few years ago, J. P. SARSFIELD, of Sacramento, became fortunately possessed of certain valuable remedial agents. With these he effected in Sacramento and Central California spread became the fame of his remedies, that business men were convinced of their entire reliability, and of the truth of the marvels they accomplished. The result has been the formation of a Company to aid him in putting these needs for suffering humanity broadly upon sale. The Company has its Depot at No. 115 EDDY STREET, SAN FRANCISCO, but the medicines can be had of all reputable

The making of Certificates has related so largely to fraud, that the public has naturally grown suspicious of them. But those here referred to are by such prominent citizens, of such irreproachable character, and the cures are so well known, and the witnesses so easy to reach, that we make the references without any hesitation:

MRS. H. C. GOODRIDGE, 28 Hawthorne street, nine years in bed with Chronic Ulcers and unutterable pain, and abandoned by physicians. Permanently cured in less than four weeks. He had a bad croupy cough, and a wheezing sound in his lungs every time he breathed. He nearly died from the obstruction of the throat. I covered him from the throat to the pit of the stomach with Allcock's Porous Plasters. In two hours the cough ceased and his breathing was much easier. In a few days he was entirely well. I kept the Allcock's Porous Plasters on him six days. Since then, whenever he is affected with colds in the throat, I never use anything but an Alcock's Porous Plaster, which cures him immediately, without any inconvenience. They are the best preventive of the croup ever known, and I would not be without them for any consideration.

Quinine, Belladonna and Capsicum, Favorite Remedies among Physicians.

6,000,000 ounces of Quinine are consumed annually. No other remedy known to physicians is used to the same extent, though Belladonna and Capsleum are prime favorites among physicians. Quiniform is a substitute for Quinine, having all the remedial virtues of Quinine, without its disagreeable and dangerous effects, and

disagreeable and dangerous effects, and Quiniform Plaster is a happy combination of Quiniform, Belladonna and Capsicum, with other ingredients, and is, as common sense would indicate, a much higher grade of plaster than the public has hitherto known. The Malaria or Ague-subduing and tonic virtue of Quiniform, and the pann-killing action of its other ingredients, are applied to the system through the pores of the skin. Quiniform Plaster is a phenomenal pain-relieving and curative remedy. For Malaria and all of the aches, pains and ills for which Quinine and Plasters have been used, it will be found to be decidedly preferable. Quiniform Plaster can be obtained of any druggist, or will be sent by mail, on receipt of 25 cents. by Yohnson & Johnson, 23 Cedar St., N. Y

MISCELLANEOUS.

Headache,

Pain in the Side and Back, and Constipation, indicate that the digestive and excretory organs are in a disordered condition, and that a laxative is needed. For this purpose, Ayer's Cathartic Pills are the best medicine that can be used. Ayer's Pills are a never failing remedy for Headaches caused by a Disordered Stomach. I suffered for years ordered Stomach. I suffered for years from this infirmity, and never found anything to give me more than temporary relief, until I began taking Ayer's Pills. This medicine always acts promptly and thoroughly, an occasional dose being all that is required to keep me in perfect health.—Mrs. Harriet A. Marble, Poughkeepsie, N. Y.

I have found entire relief from Consti-pation, Stomach troubles, and Nervous Headache, by taking Ayer's Cathartic Pills. I suffered a long time from these complaints, was under medical treat-ment, without obtaining relief, and a part of the time was unable to work.

A friend, who had been similarly afflicted, urged me to take Ayer's Pills. I commenced using this remedy, and, by the time I had taken four boxes, was cured.—F. L. Dobson, Topeka, Kans.

Ayer's Pills, Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists and Dealers in Medicine.
